1 Exhibit 19.

2 What is this document, please?

3 A It's a quick guide we put together to help our
4 clients distinguish counterfeits from our
5 genuine products -- from products that
6 infringe on our trade dress, for them to use
7 these features to identify what is made by us.

8 Q And who is the recipient of this document?

9 A Clients that purchased our products. I do not
10 know the exact population that actually
11 received this.

12 We put this together as a customer
13 service tool to help clients who are --
14 encountered counterfeit issues and asked us
15 for this.

16 Q Did you create Exhibit 19?

17 A Me personally, no.

18 Q Someone at your company did?

19 A Yes.

20 Q What caused your company to create this
21 document?

22 A Because clients run into scopes on the market
23 that were sold at unreasonably low prices to
24 create vicious competition.

25 So I believe we probably asked for

1 samples to inspect to understand what's going
2 on, and we put together this quick guide to
3 help them and to teach their consumers to look
4 out for counterfeits.

5 Q I see that the section under the heading
6 "Illustration" appears to have three separate
7 brands that this is pertaining to?

8 A Yes.

9 Q UTG, AccuShot, and Leapers?

10 A Yes.

11 Q Why does this not have your trade dress that's
12 at issue in this lawsuit on this guide?

13 A Why does it not have the trade dress -- what
14 does not have the trade dress in this guide?

15 Q Does this guide represent the trade dress in
16 this lawsuit?

17 A The basis for this guide is our trade dress
18 has been infringed, and counterfeits look
19 similar in appearance.

20 Q That's the purpose of this guide?

21 A That's part of the purpose, for our clients to
22 be able to distinguish genuine products from
23 counterfeits and infringement products.

24 Q And can you point to any words in Exhibit 19
25 referencing the trade dress at issue in this

1 lawsuit?

2 A Again, this guide is because the trade dress
3 has been infringed.

4 So -- the counterfeit products use
5 our trade dress. So the intent is for people
6 to be able to tell one from the other.

7 Q So where in this document do you discuss the
8 trade dress?

9 A I'll read the text again, because it's been
10 some time.

11 So, specifically in words, we do not
12 mention it. The assumption is that they look
13 alike, so we're going to help you distinguish
14 one from the other. And we did not mention
15 anything in words.

16 Q In this guide?

17 A In this guide.

18 Q Prior to March 21, 2014, had Leapers ever come
19 out with a similar guide?

20 A I don't recall any because -- yeah. I don't
21 recall any.

22 Q Since March 21st, 2014, has Leapers come out
23 with another Quick Guide?

24 A Probably not in this form.

25 Q What form?

1 A Not in this particular form as a guide, but we
2 have website newsroom alert telling people to
3 watch out for counterfeits.

4 Q Does this Exhibit 19 illustrate Leapers trade
5 dress anywhere?

6 MR. WASSOM: Asked and answered a
7 couple of times.

8 THE WITNESS: This guide is intended
9 as a quick help page. It does not even show a
10 complete product. So it's for our known
11 clients. It's not for general consumers.

12 BY MR. LALONE:

13 Q So the purpose of this was to tell your own
14 clients about what is a Leapers general
15 product and what is not?

16 A It's to help them understand how to tell their
17 consumers, their purchasing public.

18 Q Did you tell the person who made this document
19 that they should exclude the Leapers trade
20 dress from this document?

21 A No.

22 Q Why didn't they include the Leapers trade
23 dress in this document?

24 A It's not the purpose of the quick guide.

25 Q As of March 21, 2014, was Leapers concerned

1 about anyone infringing the Leapers trade
2 dress that is at issue in this lawsuit?

3 A Could you repeat the question, please.

4 (Reporter read back as indicated.)

5 Question: "As of March 21, 2014, was
6 Leapers concerned about anyone
7 infringing the Leapers trade dress
8 that is at issue in this lawsuit?"

9 THE WITNESS: To me the quick guide
10 is a clear indication that there's already
11 infringing behavior out there that is brought
12 to our attention, and we try to address it as
13 the initial phase.

14 BY MR. LALONE:

15 Q Let's look at the picture of the UTG design
16 under illustrations on Exhibit 19. Do you see
17 that?

18 A UTG design, yes.

19 Q Do you see that? Is that your registered
20 logo?

21 A Yes.

22 Q Have any of the defendants in this lawsuit put
23 UTG's design logo on the accused parts?

24 MR. WASSOM: Foundation.

25 THE WITNESS: I would not know.

1 BY MR. LALONE:

2 Q Have any of the -- strike that. Let me
3 restate that question.

4 Have any of the defendants, to your
5 knowledge, put the AccuShot name on any of the
6 accused products?

7 MR. WASSOM: Objection, foundation.

8 THE WITNESS: I would not know.

9 BY MR. LALONE:

10 Q Have any of the defendants put the "Leapers"
11 name on any of the accused products?

12 MR. WASSOM: Foundation.

13 THE WITNESS: I would not know for
14 certain. But based on the cases we
15 encountered, I believe so.

16 BY MR. LALONE:

17 Q I'm sorry?

18 A I believe so.

19 Q So you believe the defendants have put the
20 name "Leapers" on scopes?

21 A At some point in time.

22 Q What evidence of that do you have?

23 A We have cases where there were Leapers scopes
24 found on the marketplace with serial numbers
25 that were obviously not ours.

1 Q And did you trace those scopes to Sun Optics?

2 A I would not know who made them.

3 Q How about Sniper?

4 A I could only guess.

5 Q And how about Tuff Zone? Did you trace them
6 to Tuff Zone?

7 A I do not know.

8 Q These illustrations on Exhibit 19, do they
9 illustrate the scallops that your company is
10 claiming trade dress in?

11 A The design is part of our trade dress.

12 Q I'm focusing on the turrets in the top
13 illustration.

14 Is it your testimony that those
15 turrets contain your trade dress design?

16 A Yes.

17 Q Isn't it true that this document does not
18 direct the reader of this document to that
19 trade dress?

20 MR. WASSOM: Asked and answered
21 again.

22 THE WITNESS: The topics discussed
23 here are not related to a trade dress.

24 BY MR. LALONE:

25 Q Have you ever created a document that you sent

1 supporting the summary numbers on page 1.

2 MR. WASSOM: Do we have the same
3 thing, Doug? Mine says 1 of 11.

4 MR. LALONE: Mine says 1 of 9. Time
5 out.

6 (Discussion held off the record.)

7 BY MR. LALONE:

8 Q Can you identify for us the back 11 pages, as
9 to where that document came from?

10 A Where the 11 pages come from? Our accounting
11 system.

12 Q And you believe that to be an accurate record
13 from your accounting section?

14 A Yes.

15 Q I just want to focus on what appears to be a
16 summary of the information from '03 to 2014 --
17 is that fair to say?

18 A Yes.

19 Q Can you tell me what the headings across the
20 top represent?

21 It appears to be for magazine ad,
22 trade show, TV show, website.

23 A So the first column is year. The second one,
24 spending on catalog production, and third
25 column is magazine ad. Fourth column is

1 spending for trade shows. Fifth column is TV
2 show. Sixth is website. And then total.

3 Q Are these all the advertising expenditures for
4 your company for this time period?

5 A As far as I know.

6 Q Are these ad expenditures for rifle scopes for
7 that time period?

8 A I would think so, because our advertisement
9 usually includes optics.

10 Q So the ad spend on -- I'll call it optics, is
11 a subcomponent of, you think, these numbers we
12 see on Exhibit 20?

13 A What does that mean?

14 Q For example, your company sells more than just
15 optics, right?

16 A Right.

17 Q It could be soft apparel; it could be mounts,
18 on and on and on, right?

19 Do these numbers represent the ad
20 spend for all of your company's products from
21 2003 to 2014?

22 A That's probably a good characterization.
23 However, like the ad you showed me, optics is
24 our primary category. So I cannot think of an
25 example where we don't include optics in that.

1 Q Do you break down your advertising spend based
2 upon the product that you sell?

3 A Based on channels.

4 Q Based on channels?

5 A Yes.

6 Q Okay. So if I wanted to find out how much you
7 spend on advertising the trade dress at issue
8 in this lawsuit, could you do that?

9 A It would be less than -- unless -- if you
10 say -- if I spend \$3,000 on this ad, do you
11 consider one-third of it only for this ad? I
12 cannot break that out.

13 Q The grand total is \$2,402,572 for the period
14 of '03 through 2014 for all ads spent for your
15 company company-wide; is that correct?

16 A Correct.

17 Q So I just have a few questions with respect to
18 the headings.

19 For magazine ads, who are the
20 magazine ads directed towards? Is it to the
21 end consumer or is it to the reseller or to
22 both?

23 A I cannot be certain that it's one or the
24 other. It's probably both, but the majority
25 of the ads will be for consumers. So I can't

1 think of a trade only magazine off the top of
2 my head.

3 Q For example, you provided some ads in Shotgun
4 News, I see.

5 MR. WASSOM: Are you looking at
6 Exhibit 17?

7 MR. LALONE: No. This is a different
8 batch of documents I have here.

9 BY MR. LALONE:

10 Q Would your placement of ads under Shotgun News
11 fall under the magazine ad category?

12 A Yes.

13 Q With respect to the key areas in which you
14 sell, the key areas that you advertise in, for
15 the grand totals down below in Exhibit 20, it
16 appears as though your largest spend is at
17 trade shows; is that correct, at 1.5 million?

18 A It looks like that.

19 Q At your trade shows, do you have any signage
20 or any information that you display to
21 potential customers directing them to your
22 assorted trade dress?

23 A Again, it's all the products that are
24 displayed there that speak for themselves, and
25 posters and images put up in the booth for

1 consumers to recognize, or products -- to
2 recognize our products.

3 Q So if I went to your trade show booth, would I
4 actually find something that said, "Here's
5 Leapers trade dress"?

6 A A sign, no.

7 Q So this ad spend of \$1.5 million is not spent
8 at all towards directing consumers to your
9 trade dress, correct?

10 MR. WASSOM: Asked and answered.

11 THE WITNESS: I disagree.

12 BY MR. LALONE:

13 Q How much of the \$1.5 million that your company
14 spent on trade shows was spent towards
15 promoting and directing consumers to your
16 trade dress?

17 A The trade show's main purpose is for consumers
18 to see, look -- have a good look and feel of
19 the products, for them to see our display in
20 person.

21 So the trade dress is actually much
22 more evident when they see all the products
23 displayed, complete product lines in series
24 for different applications. And they will
25 look at the distinctive design and recognize

1 our products.

2 Q But you have no signs directing them to that,
3 do you?

4 A No signs. And we don't think it's necessary.

5 Q Are retail consumers at your trade shows?

6 A It depends on the show.

7 Q How about Shot Show?

8 A Shot Show I believe is the trade only?

9 Q How many trade shows a year do you attend?

10 A Me personally? Four minor ones, plus other
11 regional local shows.

12 Q At any of the trade shows you attended does it
13 have any signage directing consumers to look
14 at your trade dress?

15 A No signage with words to that effect.

16 Q Of the \$2.4 million in advertising spend, can
17 you identify any of the ad spend that
18 specifically went to tell consumers that
19 you're claiming rights in scallops on the
20 scope?

21 MR. WASSOM: Objection to the
22 terminology. It's vague.

23 THE WITNESS: All of the advertising,
24 whether it's print media or online or physical
25 trade shows, we use clear product images with

1 thoughtful display to illustrate our trade
2 dress without words, and yet still very
3 powerful.

4 MR. LALONE: Can I have my question
5 read back, please?

6 (Reporter read back as indicated.)

7 Question: "Of the \$2.4 million in
8 advertising spend, can you identify
9 any of the ad spend that specifically
10 went to tell consumers that you're
11 claiming rights in scallops on the
12 scope?"

13 THE WITNESS: Yes. We claim rights
14 to our unique design through our consistent
15 advertising display. Not in specific words,
16 but in the display and product images and
17 signage showing the consistent look throughout
18 our products.

19 BY MR. LALONE:

20 Q How many dollars did your company spend to
21 date telling consumers you're claiming rights
22 on the scallop on the scope?

23 MR. WASSOM: You're going to keep
24 getting the same answer.

25 THE WITNESS: We spend a significant

1 BY MR. LALONE:

2 Q Sure. When did Leapers first own the trade
3 dress rights asserted in this case in the
4 State of Michigan?

5 MR. WASSOM: Asked and answered. Do
6 you want to go off the AEO record at this
7 point?

8 MR. LALONE: Sure.

9 THE WITNESS: Are you talking about
10 registration or no?

11 BY MR. LALONE:

12 Q No. This is the trade dress at issue, the
13 subject of the lawsuit, right?

14 A Yes.

15 Q There's not a federal trade dress at issue in
16 this lawsuit, correct?

17 MR. WASSOM: Objection,
18 mischaracterizes the record.

19 THE WITNESS: I don't understand the
20 question.

21 BY MR. LALONE:

22 Q Does Leapers own a federal trademark
23 registration for the trade dress in this
24 lawsuit?

25 A Not at this point. Not yet.

1 about 2 million?

2 A No.

3 Q What's your understanding of the overall sales
4 generated revenue per year by Leapers?

5 A Again, this is not just optics?

6 Q No. This is overall.

7 A Annual revenue?

8 Q Correct.

9 A Why is that relevant?

10 Q Well, just take it to optics. And if you know
11 the number for optics, I would be happy to
12 visit that with you, too.

13 So what's the annual sales revenue
14 for optics products?

15 MR. WASSOM: We are on the AEO
16 record, right?

17 MR. CLEVELAND: Yes.

18 THE WITNESS: On the optics side,
19 annually, right now, it's probably between 5
20 to 7 million for optics.

21 BY MR. CLEVELAND:

22 Q Five to seven million. Okay.

23 Where would I find that figure in
24 your documents? How do I back that figure up
25 in your documents?

1 A I believe we have revenue.

2 MR. WASSOM: I believe we have, too.

3 But we've provided 15,000 pages of documents.

4 If you want to ask her about a particular

5 document --

6 MR. CLEVELAND: Sure. But I didn't

7 see that in there. We can talk about that

8 later, and we can keep on going.

9 BY MR. CLEVELAND:

10 Q Based on Exhibit 20, I understand that your
11 average per year expenditures for advertising
12 expenditures is approximately \$350,000; is
13 that correct?

14 A Yeah, up and down.

15 Q So 5 to 7 million dollars, that's a big swing
16 for optics. But do you know exactly what the
17 number is per year in optics revenue
18 generation?

19 A Well, the market changes from year to year, so
20 5 to 7 was like the last time I looked at one
21 of the documents submitted to you.

22 Q What was Leapers annual sales generated for
23 optics in 2014?

24 A 2014 wasn't a good year.

25 Q What was the amount?

1 A Honestly, I think it's probably -- I cannot
2 say for sure, but it would not be -- maybe
3 5 million.

4 Q And what was it in 2013?

5 A 2013 was probably higher. So I would say, if
6 I committed to my memory, it's between five to
7 seven. 2003 would be higher.

8 Q Do you know what Leapers' market share is in
9 the rifle scope optics market?

10 A I do not know.

11 Q Isn't it true that the rifle scope market is
12 fragmented and highly competitive with a lot
13 of different players?

14 MR. WASSOM: Objection to the
15 vagueness.

16 THE WITNESS: It depends on how you
17 look at it. Market -- the products come with
18 different features and price ranges. So I
19 believe that we have a very prominent place in
20 the segment that we focus on.

21 BY MR. CLEVELAND:

22 Q How many competitors does Leapers have in the
23 rifle scope market?

24 A I cannot tell you.

25 Q Over 20?

1 MR. WASSOM: I would just ask you to
2 give her a chance to finish her answer, Joe.

3 MR. CLEVELAND: I'm sorry.

4 THE WITNESS: I cannot count 20,
5 because I cannot count all the people selling
6 scopes as my competitors. It's in the right
7 segment with right features that can be
8 considered a competitor.

9 BY MR. CLEVELAND:

10 Q Would you agree with me that there's not one
11 single rifle player in the rifle market that
12 has a majority share of the market?

13 A That I do not know.

14 Q You don't know that?

15 A Yeah. But certainly brands are -- there are
16 recognizable brands in the marketplace that
17 consumers know.

18 Q Who do you think has the largest share of the
19 market?

20 A I have no --

21 MR. WASSOM: Objection to the
22 vagueness of "the market."

23 BY MR. CLEVELAND:

24 Q Do you think competition is good or bad for
25 consumers --

1 have it in discovery.

2 THE WITNESS: I would like to add, if

3 I may --

4 BY MR. CLEVELAND:

5 Q Sure.

6 A Discontinuation does not mean that we no
7 longer offer customers similar scopes with
8 that type of configuration with our trade
9 dress.

10 Q Can you turn to the product on page ID No. 49,
11 which is 29 in this document?

12 A Yes.

13 Q Can you confirm whether or not Leapers
14 SCP-6245AOMDLTS, whether or not that scope has
15 been discontinued?

16 A Discontinued.

17 Q Do you know when that was discontinued?

18 A I have to look it up.

19 Q Now, I would like to hand you another exhibit.
20 We'll mark that as the next exhibit number.

21 (Marked Deposition Exhibit 27;
22 Leapers Ad, Multiple LEAPERS005621.)

23 BY MR. CLEVELAND:

24 Q I'm handing you what's been marked as
25 Exhibit 27.

1 And this appears to be some
2 advertising information put out by Leapers,
3 correct?
4 A It looks like it.
5 Q Do you see where it says "Most User Friendly
6 Target Turrets"?
7 A Yes.
8 Q And it's pointing to the user friendly
9 turrets, is that right, the box?
10 A Yes.
11 Q Can you turn to the next page? Do you see the
12 highlighted version from the first column on
13 the next page. Do you see where it says:
14 "True Hunter turrets are manufactured
15 in brass with easy-to-grip rings
16 making adjustments simple even whilst
17 wearing gloves." Do you see that?
18 A You're talking about this?
19 Q Yes, ma'am.
20 A Yes.
21 Q Do you see that?
22 A Yes.
23 Q So Leapers is touting the easy grip of the
24 adjustment knobs, even while a person is
25 wearing gloves, correct?

1 A This particular adjustment.

2 Q True?

3 A This particular adjustment knob.

4 Q Is that right?

5 A Yeah. But that is -- that has no relationship
6 to this.

7 Q Right. So this is a different type of
8 adjustment knob that Leapers is touting on
9 this page than on this page, correct?

10 MR. WASSOM: And by "this" we're
11 talking about pages 1 and 2 of this exhibit,
12 which I will also note parenthetically is
13 marked AEO.

14 THE WITNESS: Right.

15 BY MR. CLEVELAND:

16 Q So would you turn to the next page of this
17 exhibit on the highlighted column. Do you see
18 where it says:

19 "Finger adjustable turrets are
20 manufactured with easy-to-grip
21 design;" correct?

22 A That's what it reads.

23 Q And so Leapers is touting the fact that their
24 turrets, the adjustment on the turrets, is
25 easy to grip, correct?

1 A No. Both these pages that you're referring to
2 are related to finger-adjustable turret.

3 Q What is that?

4 A That means you can turn and get click, click,
5 click, by using your fingers.

6 MR. LALONE: (Demonstrating.)

7 BY MR. CLEVELAND:

8 Q Is that the clicking noise you're referring
9 to?

10 A These are -- these are related to --
11 obviously, I should really ask you to say,
12 what is this user manual related to? Where
13 did you access this particular document?

14 Q You gave it to us.

15 A So this is the user manual related to specific
16 products. And these specific products are --
17 the instruction is explaining about the
18 specific turrets. And these turrets are
19 finger adjustable, at that time, as an
20 advancement versus coin adjustable or
21 screwdriver adjustable. None of these are.

22 So the finger-adjusting feature is a
23 new advancement at that time for these scope
24 models.

25 And all the adjustment turrets have

1 you just make adjustments.

2 Q Everything that we have before us are all
3 target knobs; is that right?

4 A Yes.

5 Q We have no --

6 A Oh, that one isn't.

7 Q This one has a cap on it?

8 A Right.

9 Q So if you take off the cap, you can see the
10 brass adjustment part?

11 A Right.

12 Q And is it the brass adjustment that you're
13 speaking of that is talking about this
14 easy-to-grip design?

15 A In this context, yes.

16 MR. LALONE: Let the record reflect
17 the witness is pointing to Exhibit No. 8.

18 MR. CLEVELAND: Which has the cap on
19 it.

20 (Marked Deposition Exhibit 28; User
21 Manual Leapers - Confidential.)

22 BY MR. CLEVELAND:

23 Q I'm handing you what's been marked Exhibit
24 No. 28.

25 MR. WASSOM: This is also AEO.

1 BY MR. CLEVELAND:

2 Q So if you turn to the second interior page of
3 28 with highlighting on it. Do you see that?

4 A Yes.

5 Q This is in a user manual which Leapers says:

6 "The turrets are manufactured with
7 this easy-to-grip finger adjusting
8 design making adjustments simple even
9 whilst wearing gloves."

10 And that's the cap design with the
11 copper inside; is that correct?

12 A Yes.

13 (Marked Deposition Exhibit 29;
14 Leapers Catalog Spring 2005.)

15 BY MR. LALONE:

16 Q I'm handing you a catalog marked as
17 Exhibit 29. And it's a Spring 2005 Leapers
18 catalog, right?

19 A Yes.

20 Q And so I'm just going to read this and get
21 your comments on it. It says:

22 "The Most User Friendly Feature: Side
23 Wheel parallax Adjustment ...
24 providing close reach and precise
25 objective adjustment."

1 And then it also says:
2 "Larger and consistent
3 windage/elevation adjustment range."
4 Is that the range or the size of the
5 adjustment knobs?
6 A The crosshair moving range.
7 Q And then if you go into this -- I'm sorry, I
8 don't have another copy of this.
9 On this interior page, this is the
10 copper -- this is on the second page of
11 Exhibit 29, page 4. Is this the copper design
12 you're talking about, the easy-to-grip copper
13 design that's depicted in the picture?
14 A That's brass. That's the design where there's
15 a cover you remove before you can use your
16 finger to grip the base for adjustment.
17 Q Isn't it true that the scallop design serves a
18 purpose of allowing the user to get a better
19 grip on the part that's moveable on the scope?
20 A Our scallop design is intended for a pleasing
21 attractive visual effect.
22 Q But doesn't it also serve another purpose,
23 that is, allowing somebody to get a grip on a
24 part that is moveable on the scope?
25 A The part that's moveable would have been

1 engineered to be moveable.

2 Q Right. But I'm saying, doesn't the scallop
3 design allow somebody to get a firmer grip on
4 the part that is moveable on the scope?

5 A Our particular design is not necessarily going
6 to give you a firmer grip. So it's just a
7 surface created with our unique look.

8 Q But doesn't the surface of the scalloping
9 design allow somebody to hold it in a tighter
10 fashion than on a slick surface like this?

11 If this is slick, like this surface
12 on Exhibit No. 8, is it harder to turn that,
13 as opposed to something that has a surface
14 that's rough or rigid, like this Exhibit
15 No. 7?

16 MR. WASSOM: Objection to
17 mischaracterization of the specimen.

18 THE WITNESS: A surface of a moving
19 part can be smooth and still that can be
20 turned, depending on the engineering design.
21 There are plenty of products on the market
22 that can be used as examples.

23 BY MR. CLEVELAND:

24 Q Does the scalloping design make it easier for
25 a user of your product to turn the parts?

UTG T8 8X POWERED 2-16X44 MRC SCOPE

When you need one optic to play multiple roles and defeat all competition, you can count on UTG's T8 Series 2-16X44 30mm MRC (Multi-range Hunting & Competition) Scope. This scope is not just a new born classic. It is a complete UTG technological breakthrough with its innovative 8X power ratio. The scope is just right for any range on any long gun platform. Use 2-3X power for close range hunting and fast moving targets, 4-6X power for 100 meter ranges, and 8-16X power for extended range accuracy. It offers the world's only etched glass 36-color mil-dot reticle allowing a positive sight picture for any environment at any time of day. UTG's signature precision adjustment offers quick pinpoint accuracy while the TS platform makes it completely shock, rain, and fogproof.

VALUE QUALITY

BRILLIANT PRODUCTS AT AMAZING PRICES!
Solid features for the money. We offer you what you want, at the price you love.

Strive for excellence, year after year! **YOUR VALUABLE FEEDBACK** sets the bar for us. Come and enjoy the superb quality in our brands!

Our badge of honor. We pay attention to each and every detail. **FROM DESIGN TO DELIVERY**, to give you the quality product you want, at the time you want it.

All trademarks are the property of their respective owners.

GIFTWARE**WWII METAL VEHICLES**

Authentically accurate models of combat vehicles from the World War II era. Equipped with all the military gear. The vehicles are all assembled and painted by hand with amazing details, making each of them more than just a toy. They can be nostalgic memorabilia for yourself, mania displays to honor a precious and memorable past, or simply great story pieces for you to reminisce with your buddies and family.

REPLICA WWII MILITARY JEEP
GIF-WW2JP1

Replica of the famous WWII Military Jeep with fantastic details, even including shovel, spare tire and "ponyons". Overall measurements: 11 1/2" long, 5 1/2" high and 4 1/2" wide. Weighs 1 1/2 lbs.

REPLICA WWII HALF TRACK
GIF-WW2HT1

Replica of the famous WWII Military Half Track. Featuring four heavy caliber twelve mounted machine guns. Overall measurements: 13" long, 7 1/2" high and 5 1/2" wide. Weighs 2 1/2 lbs.

REPLICA WWII MOTORCYCLE
GIF-WW2MT1

Replica of the famous WWII Military Motorcycle. Packed with details like footboards, brake and shift pedals, suspension, seatbelts, fenders and more. Overall measurements: 18 1/2" long, 8 1/2" high and 6" wide. Weighs 3 1/2 lbs.

you have ever seen. These authentically accurate models of combat soldiers and S.W.A.T. Team commanders from different eras are in battle dress uniforms and equipped with all the essential weapon sets. Figurine body constructed with total joint capability, amazing facial details, and the comprehensive accessories make each of these figurines more than just a toy. They are not only nostalgic memorabilia for yourself, but also great story pieces for you to reminisce with your buddies and family.

CAMP-S01 Sterno Folding Stove

The ultimate lightweight folding stove to use with canned heat like Sterno. Holds flat for easy backpacking. Sturdy enough to hold heavy pots. Holds a seven ounce can of Sterno or other canned heat products.

CAMP-S02 Personal Stove

Perfect packers or emergency stove. Ultra-lightweight and folds to card deck size. Uses Trioxane fuel cans. Great to cook, heat, warm or sterilize. Fits in your shirt pocket and ensures your survival.

LT-TL020 Strobe Light

Two "AA" battery operated bright flashing strobe light visible for over 3 miles. Great safety device to have for emergencies in car or boat. Adds safety while making road side repairs. Includes three lenses: clear, amber and red. Attaches with magnet or belt holder. Water resistant.

Dear Customer,

Surprised to see the new look of our catalog? Hope you love it the same way we do! In the past, we used every available space in the catalog to speak directly to you about our products - the very products we feel so passionate about. This year, we decided to broaden our appeal by adding a new chapter to our "storybook". We would like to take this opportunity to share some memories with old friends as well as to introduce ourselves to those that are just getting to know us. We extend our warmest welcome to all of you to become part of the Leapers' family!

This company started as a family business in 1992 run by a husband and wife team in none other than a garage. Our first Signature Product was a 4X28 Mini Scope which later became a very popular item among hunters and target shooters. This humble start always remains in our hearts, reminding us what we are about and whom we want to serve. Over the years, we have grown in so many ways. We now have a great office and warehouse building as our headquarters in Michigan. We have a world-class virtual staff network, providing us with nimble and cost effective support in anything you can think of, from design to delivery, from sourcing to logistical support. Most importantly, we have our devoted and hard-working employees with whom many of you have interfaced. Last but not least, our product offerings have increased from 1 compact scope to over 10 major product lines, encompassing close to a thousand items. The brands we proudly showcase on page 2 represent our years of effort and investment. While feeling great about our achievement, we owe our sincerest appreciation to you, our loyal customers, for your encouragement and continuous support.

Enough of our history! We hope you enjoy the rest of the read! Take your time to check out our new items. Drop us a note to tell us what you think and what you'd like to see for the future. Below we leave you with our motto, the very business principles that have led us to this date. Please be assured that these will continue to guide us in all of our future endeavors to serve you.

- Listen to the voice of the customer.
- Offer the best quality product with the most competitive pricing, and back it up with the most efficient and customer oriented service.
- Provide a total solution and complete services to answer customer needs.
- Say what we do; do what we say - Deliver!

EASY-GRIP ADJUSTMENT

ERGONOMIC DESIGN

EMERALD LENS COATING

ONE PIECE TUBE

FLIP OPEN LENS COVER

- One Piece Tube Precision Machined. Robust and Durable Construction. Completely Sealed and Nitrogen Filled. Perfect for All Terrain/Weather.
- One Piece Internal Tube to Provide Solid Lens Element Housing for Consistent and Reliable Shooting.
- Integral Windage/Elevation Housing, Dual O-Rings and Easy-to-grip Tactical Finger Adjustment to Enhance Tube Integrity and Accurate Shooting.
- Multi-layer High-tech Emerald Coatings for Most Light, Resolution and Clarity.
- Excellent Field of View and Long Eye Relief for Shooting Comfort.
- Proven Tactical Mil-Dot Reticle to Provide Range Estimates and Enhance Accurate Shooting.
- Ergonomic Design, High Quality Precision Machined Power Ring, Focus Ring and Eyepiece to Guarantee Smooth and Accurate Adjustments.

**MIL-DOT RANGE ESTIMATING:**

- Range estimating requires common knowledge/experience about your target's actual width or height.
- 1 mil in a scope reticle is the distance from the center of one dot to the center of the next dot.
- Set your scope at the highest power. View the target through the scope. Place the center of the dot against one edge of the target and measure to the opposite edge of the target.

- Once the target has been measured in mils, use one of the formulas below to estimate the distance of the target. (Refer to the specs table on page 5 for correct formula for each model.)

Formula A -

$$\frac{\text{Height or Width of Target in Meters} \times 1,000}{2 \times \text{Height or Width of Target in Mils}} = \text{Range in Meters (1 M = 1.0936 Yards)}$$

Formula B -

$$\frac{\text{Height or Width of Target in Meters} \times 1,000}{\text{Height or Width of Target in Mils}} = \text{Range in Meters (1 M = 1.0936 Yards)}$$

Formula C -

$$\frac{\text{Height or Width of Target in Meters} \times 1,000}{\text{Height or Width of Target in Mils}} = \text{Range in Meters (1 M = 1.0936 Yards)}$$

For example, based on past experience, the length of a known animal from shoulder to tail is 40 inches (1.016 meters), and we see through our mil-dot scope to find that it occupies 5 mils. Therefore, the distance using Formula A = $(1.016 \times 1,000) / (2 \times 5) = 101.6 \text{ meters (110 yds)}$

- Scopes come with range estimate tables for easy reference.

M1 CARBINE - M1 GARAND - M14 - MINI-14 - CUSTOM PARTS**M1 CARBINE - M1 GARAND - M14 - MINI-14 APPLICATIONS**

RB-R8R150
Quick to install and a big help with fast magazine changes.

30MM TACTICAL MIL-DOT SCOPE

- 30mm Tube for Maximum Light Transmission and Wider Windage/Elevation Adjustment
- Larger and Consistent Windage/Elevation Adjustment Range - 4-16X56 exceeds 35 MOA, 16X56 and 3-12X56 exceed 40 MOA in each direction.

Adjustable Objective

Side Wheel Parallax Adjustment - New, convenient and user friendly feature, allowing for easy and precise objective adjustment - FROM 10 YARDS TO INFINITY

4-16X56 FULL SIZE MIL-DOT SCOPE
SCP3-416A0ND

Unique Dual View Design, providing 12% more Field of View (FOV) at high powers than other similar products on the market. Most scopes use one common FOV Definition between low and high powers, resulting in a smaller, compromised FOV under high powers. Our unique Dual View System adjusts its optical definitions to create an optimally enlarged FOV as power changes to above 6X.

16X56 FULL SIZE MIL-DOT SCOPE
SCP3-1658A0ND

Parallax adjusts from "True 10 Yards" - An Airgunner's Must-have.

3-12X56 FULL SIZE MIL-DOT SCOPE
SCP3-312ND

Most value for a 30mm tube scope. Crystal clear 56mm objective lets you see more of your target, provides great light transmission for dusk-to-dawn use and delivers ultra-high resolution and performance.

Dollar for dollar, feature for feature, you have an absolute winner!

AR-15 SHOWROOM

T168 Scope
(Page 6)

AR-15 Carbine
Cheekpiece **RB-A487**
Adds height to your cheekrest with this soft rubber rest. Snaps on collapsible carbine extension tube.

AR-15 Handguard with Liners **RB-16FDL/RB-16FDS**
Fits most AR-15/M16 rifles. Constructed of high density and durable polymer. Complete with aluminum heat shield to dissipate heat.

AR-15 Shorty Carbine
Butt Pad **RB-A030**
Adds 1" to the length of shorty carbines. Prevents slip and softens recoil. Easy to install. No drilling or tapping required.

AR-15 Cleaning Kit
TL-A001
Includes nylon pouch, 6 pieces rod assembly (with adaptor), oil bottle, and Alico clip to attach to web gear.

.223 Shell Extractor
TL-EX213
Remove broken cartridges from the chamber of your M16 and AR-15 rifles. Fits the buttstock cleaning kit.

AR-15/M16 Blank Firing Adaptor
MNF-16A01
Install at the tip of barrel. Allows you to fire blanks semi auto.

AR-15 Magazine Follower **RB-AF01**
Designed to reduce mag failure and jams. Provides the reliability that you require. Simply replaces existing follower.

AR-15 Dual Front Sight Tool **SCP-A1245**
Two-In-One tool with dual functions to adjust both 4-prong and 5-prong front sights.

AR-15 Buffer **RB-A005**
Fits near your takedown pin and keeps the upper section snug and tight against the lower. Increases accuracy, decreases vibration and prevents wear.

AR-15 Magazine Clamp **TL-A050**
Holds two 20 or 30 round magazines with steel spring tension.

4 COLLAPSIBLE AR-15/M4 CARBINE STOCK For Pre-ban Guns, Target Sport and Non-U.S. Market Only

NEW GENERATION FEATURES

- Precision Machined Parts for Maximum Strength
- Superior Quality Molded and Injected Synthetic Stock
- Excellent Quality Aluminum Buffer
- Available in Black(B) and OD Green(G)

NEW

AR-15 Stock - 4 Adjustable Positions **RB-A450**

Stock is made of durable synthetic plastic, complete with spring and GI quality buffer. New gen. features include a superior quality synthetic stock, a much sturdier, premium aluminum buffer to withstand recoil, and precision machined aluminum tube with extra strength and density. Works on AR-15 rifles & clones. Replaces your current target gun stock or to upgrade an older gun to a collapsible stock.

- × **One Piece Outer Body**
Robust and Durable Construction
 - Precision machined from aircraft-grade aluminum alloy
 - Completely sealed and nitrogen filled
 - Perfect for all terrains and all weather conditions
- × **One Piece Internal Tube For Solid Lens Housing**
 - Surpasses common sectioned design
 - Provides strong and solid housing to guarantee consistent and reliable shooting
- × **Integral Windage and Elevation Housing**
 - Integral housing to eliminate potential leak and improve tube integrity
 - Easy-to-grip high quality finger/target adjustment knobs
 - Precise 1/4 or 1/8 minute click for accurate shooting
 - Guarantees adjustment with precision and consistency
- × **Multi-layer High-tech Emerald Coatings on Lens Elements**
 - Top quality high-tech Emerald coatings applied on all lens elements
 - Conductive to the most light transmission, highest resolution and clarity
 - Reduces reflection

- × **Finest Electronic Reticle Design and Comfortable Eye Relief**
 - Reticle etched on lens element to guarantee durability (AcuShot models)
 - Fine reticle design providing the most view and fast target acquisition
 - Adjustable electronic reticle to provide clear aiming during the day and twilight
- × **High Quality Ergonomic, Precision Machined Power Ring, Focus Ring and Eyepiece**
 - Guarantees smooth and accurate adjustments
 - Enhances shooting accuracy

Additional 5th Gen Models on Page 5

**3-9X40 FULL SIZE SCOPE**

Model: SCP-394FE
Magnification: 3X - 9X
Objective Dia.: 40 mm
Field of View: 40' - 145' @ 100 yards
Eye Relief: 3.1 - 7.1 inches
Exit Pupil: 12.5 - 4.5 mm
Click Value: 1/4 inch (1 click @ 100 yards)
Length: 12 inches
Weight: 13.2 oz

A BEST BUY VARIABLE POWER full size scope. This 3-9X40 full size scope surpasses competitors by providing a true 3 to 9 power zoom with minimum variations in point-of-impact change between power settings. Its unique one piece tube construction provides much better shockproof, fogproof and waterproof capabilities. Worldwide most popular and most versatile on all rifles.

www.leapers.com

3-9X40 MINI SCOPE

Model: SCP-394ME
Magnification: 3X - 9X
Objective Dia.: 40 mm
Field of View: 40' - 145' @ 100 yards
Eye Relief: 3.1 - 7.1 inches
Exit Pupil: 12.5 - 4.5 mm
Click Value: 1/4 inch (1 click @ 100 yards)
Length: 7.8 inches
Weight: 11.8 oz

STATE OF THE ART - The Ultimate Mini Variable Scope. This 3-9X40 mini scope features the finest optical design, highest quality lenses and coatings, and storage locking and sealing mechanism to sustain any recoil and hard use of the scope. BEST in class zero-tolerance machining offers virtually no movement of the point-of-impact between power settings. Most versatile for AR-15/M-16, M4-M1, M1 Carbine, 22 and other sporting rifles.

6X40 MINI SCOPE

Model: SCP-640MF
Magnification: 6X
Objective Dia.: 40 mm
Field of View: 10' @ 100 yards
Eye Relief: 3 inches
Exit Pupil: 7 mm
Click Value: 1/4 inch (1 click @ 100 yards)
Length: 8 inches
Weight: 16.1 oz

In addition to the same great features of the 6X32 Mini, the 6X40 Mini has **BIGGER OBJECTIVE LENS** providing wide field of view, fast target acquisition and more light gathering capability. It delivers the best overall performance for fixed power mini scope. A MUST BUY for hunting target shooting enthusiasts who love power, speed and accuracy. Most recommended for AR, AR-15, 22 and other sporting rifles.

6X32 MINI SCOPE

Model: SCP-632MF
Magnification: 6X
Objective Dia.: 32 mm
Field of View: 17.5' @ 100 yards
Eye Relief: 3 inches
Exit Pupil: 5.6 mm
Click Value: 1/4 inch (1 click @ 100 yards)
Length: 7.78 inches
Weight: 9.4 oz

DREAM FOR FIRST TIME MINI SCOPE BUYERS Unmatchable in quality/value by any other competitor, this scope has gained tremendous popularity over the years. The 5th Gen Version offers a redesigned one piece tube, enhanced optical/wide elements and strengthened locking and sealing systems. Excellent upgrade for 4X and 6X mini scope owners. Works with sporting rifles, military rifles, 22 rifles or shotguns.

Also Available with Sapphire Lens Coating

LEAPERS002004

MNT-991 (AR-15 WEAVER STYLE BAR MOUNT)

Attaches to the carry handle of AR-15 rifles and clones. One-piece machined construction with see-through design. Takes standard Weaver type rings and has many slots (16 slots) for scope or accessory placement. Black anodized aluminum fits your guns and matches the finish well.

5th Generation
New Style Upper Rail System**MNT-992 (AR-15 WEAVER STYLE TACTICAL MOUNT)**

This strong and sturdy mount attaches to the carry handle of AR type rifles. One-piece machined construction with see-thru design. Takes standard Weaver type rings and has 11 slots for scope or accessory placement. Black anodized aluminum fits your guns and matches the finish well.

5th Generation
New Style Upper Rail System**MNT-993 (AR-15 MILITARY TACTICAL MOUNT)**

Superior mil-spec quality and design for serious use at a fraction of the cost. Solid machined construction with black matte finish. Takes standard Weaver rings or STANAG rings. See-thru mount seats neatly inside the upper receiver handle and is cured with a knurled thumbnut.

**MNT-995 (DELUXE SEE-THRU RISER MOUNT WITH PICATINNY AND STANAG DIMENSION)**

New Gen. Picatinny style riser mount with see-thru design and STANAG dimension for flat top AR-15s, FALs and other rifles. Precision machined to exact tolerances from aircraft-grade aluminum alloy. Clever retention thumb nuts and locking plate for easy and quick installation. Anodized black matte finish. Has plenty of slots for maximum scope ring adjustments.

U.S. Distribution - TAPCO

**MNT-996 (AR-15 FLAT TOP ADAPTOR MOUNT)**

Excellent designed AR-15 flat top mount system that attaches to any Weaver rail on the latest match rifles. User friendly thumb nuts and locking plate for easy and quick installation. Top mount allows for AR-15 style scopes, night vision installation.

**MNT-TL01 (DELUXE WEAVER TRILUX MOUNT)**

The most versatile mount for use with Trilux scopes and flat top AR-15s, FALs and other rifles utilizing a Weaver base. Improved design secures using side screws and locking plate so that you do not have to remove your scope to remove the mount. The top mount has the inch type "ear" tabs for easy installation of the Trilux scopes. All steel construction.

**TRILUX SCOPE MOUNT****MNT-TL16 (TRILUX MOUNT FOR CARRY HANDLE)**

Special mount for use with Trilux scopes and rifles with AR-15 style carry handle. One piece body, all steel construction, fits on top of a carry handle and secured by mil-type knurled knob. Quick detach through handle hole, no gun-smithing required. The top mount has the inch type "ear" tabs for easy installation of the Trilux scopes.

AK MOUNTS**NEW**
